

Matthew M. Kling

mattkling@berkeley.edu; 802-488-4668

3040 VLSB #3140, UC Berkeley, Berkeley, CA 94720

Updated December 7, 2019

RESEARCH

I investigate what shapes the geographic distributions of genes, species, and ecosystems, and how we can predict and prevent the erosion of biodiversity under global environmental change. I primarily study plants using big data.

EDUCATION

PhD, Integrative Biology *expected 2020*

University of California, Berkeley—David Ackerly, advisor

Thesis: *Macroecological perspectives on plant biodiversity under global change*

BA, Conservation Biology & Environmental Studies *2005*

Middlebury College—Stephen Trombulak & Andrea Lloyd, advisors

Thesis: *The ecophysiology of alpine treeline: a case study in balsam fir*

EMPLOYMENT

Graduate Student Instructor in data science—UC Berkeley *2019–2020*

Consultant in Global Change Biology—NatureServe *2015–2019*

Bioclimate Analyst—NatureServe *2013–2015*

Science Analyst—Brighter Planet *2008–2013*

Supervisory Biologist—Institute for Wildlife Studies *2007–2008*

Canid Ecology Crew Leader—Yellowstone Ecol. Rsrch. Center *2005–2006*

Plant Ecology Technician—US Geological Survey *2005*

Ungulate Ecology Technician—National Park Service *2005*

Environmental Intern—Administracion Ambiental Cooperativa Chilena *2004*

Research Assistant—USDA National Wildlife Research Center *2002*

AWARDS & FELLOWSHIPS

NSF Graduate Research Fellow (\$102,000 + tuition) *2015–2020*

Berkeley Fellow (\$60,000 + tuition) *2015–2020*

NSF NRT Data Science Fellow *2015–2017*

USGS-NatureServe EcoInforma student app award (\$2000 travel) *2015*

EPA Apps for the Environment (National runner-up) *2011*

Departmental High Honors & *Magna Cum Laude*, Middlebury College *2005*

LANGUAGES & SKILLS

Spoken: English (native), French (adv.), Spanish (adv.), German (beg.)

Programming: R (adv.), Python (int.), L^AT_EX(int.), git (int.)

Geographic information systems: ArcGIS, R

Design software: Illustrator, InDesign, Photoshop
