

Matthew M. Kling, PhD

mattkling@berkeley.edu; 802-488-4668

3040 VLSB #3140, UC Berkeley, Berkeley, CA 94720

Updated April 27, 2021

RESEARCH

I study how we can predict and prevent the erosion of biodiversity under global environmental change. Working at the intersection of conservation biogeography, global change biology, and data science, I integrate new modeling approaches with big data to explore the processes that shape the geographic distributions of genes, species, and ecosystems at large scales.

EDUCATION

PhD, Integrative Biology 2020
University of California, Berkeley—David Ackerly, advisor
Thesis: *Plants on the move: the biogeography of dispersal and persistence under climate change*

BA, Conservation Biology & Environmental Studies 2005
Middlebury College—Stephen Trombulak & Andrea Lloyd, advisors
Thesis: *The ecophysiology of alpine treeline: a case study of balsam fir*

AWARDS & FELLOWSHIPS

NSF Graduate Research Fellow (\$102,000 + tuition) 2015–2020
Berkeley Fellow (\$60,000 + tuition) 2015–2020
NSF NRT Data Science Fellow 2015–2017
USGS-NatureServe EcoInforma student app award (\$2000 travel) 2015
EPA Apps for the Environment (National runner-up) 2011
Departmental High Honors & *Magna Cum Laude*, Middlebury College 2005

RESEARCH POSITIONS

Postdoctoral Scholar, Ackerly Lab—UC Berkeley 2020–present
Consultant in Global Change Biology—NatureServe 2015–2019
Bioclimate Analyst—NatureServe 2013–2015
Science Analyst—Brighter Planet 2008–2013
Supervisory Biologist—Institute for Wildlife Studies 2007–2008
Canid Ecology Crew Leader—Yellowstone Ecol. Rsrch. Center 2005–2006
Plant Ecology Technician—US Geological Survey 2005
Ungulate Ecology Technician—National Park Service 2005
Environmental Intern—Administración Ambiental Cooperativa Chilena 2004
Research Assistant—USDA National Wildlife Research Center 2002

LANGUAGES & SKILLS

Spoken: English (native), French (adv.), Spanish (adv.), German (beg.)
Programming: R (adv.), Python (int.), L^AT_EX(int.), git (int.)
Geographic information systems: ArcGIS, R
Design software: Illustrator, InDesign, Photoshop

Kling, M. (2005). The ecophysiology of alpine treeline: spatial patterns in balsam fir (*Abies balsamea*) growth and water relations on Mount Abraham, Vermont. Undergraduate senior honors thesis, Middlebury College.

TEACHING

Data Science in Global Change Ecology, UC Berkeley *Fall 2019*
Graduate Student Instructor

Reproducible & Collaborative Data Science, UC Berkeley *Spring 2019*
Graduate Student Instructor

Building web applications with Shiny, UC Berkeley *Jan 2019; Jan 2018*
Lead workshop instructor

Introductory R, UC Berkeley *Jan 2017*
Workshop co-instructor
