Matthew M. Kling

mattkling@berkeley.edu; 802-488-4668 3040 VLSB #3140, UC Berkeley, Berkeley, CA 94720 $updated\ January\ 17,\ 2019$

RESEARCH

I investigate how climate shapes the geographic distributions of genes, species, and ecosystems, and how this understanding can inform biodiversity conservation in the face of climate change. I primarily study plants using big data.

EDUCATION

PhD, Integrative Biology

expected 2020

University of California, Berkeley

Advisor: David Ackerly

BA, Conservation Biology & Environmental Studies

2005

Middlebury College

Advisors: Stephen Trombulak & Andrea Lloyd

EMPLOYMENT

Consultant in Global Change Biology—NatureServe	2015–present
Bioclimate Analyst—NatureServe	2013 – 2015
Science Analyst—Brighter Planet	2008 – 2013
Supervisory Biologist—Institute for Wildlife Studies	2007 – 2008
Canid Ecology Crew Leader—Yellowstone Ecol. Rsrch. Center	2005 – 2006
Plant Ecology Technician—US Geological Survey	2005
Ungulate Ecology Technician—National Park Service	2005
Environmental Intern—Administracion Ambiental Cooperativa	Chilena 2004
Research Assistant—USDA National Wildlife Research Center	2002

AWARDS & FELLOWSHIPS

NSF Graduate Research Fellow (\$102,000 + tuition)	2015-2020
Berkeley Fellow (\$60,000 + tuition)	2015–2020
NSF NRT Data Science Fellow	2015 – 2017
USGS-NatureServe EcoInforma student app award (\$2000 travel)	2015
EPA Apps for the Environment (National runner-up)	2011
Departmental High Honors & Magna Cum Laude, Middlebury College	ge 2005

LANGUAGES & SKILLS

Spoken: English (native), French (adv.), Spanish (adv.), German (beg.)

Programming: R (adv.), Python (int.), LATEX(int.), git (int.)

Geographic information systems: ArcGIS, R Design software: Illustrator, InDesign, Photoshop
